CASTORIA

for Infants and Children.

MOTHERS, Do You Know

that Paregoric, Buteman's Drops, Godfrey's Cordial, many so-called Soothing Syrups, and most remedies for children are composed of opium or morphine?

Do You Know that opium and morphine are stupefying narcotic poisons?

Do You Know that in most countries druggists are not permitted to sell narcotics without labeling them poisons?

Do You Know that you should not permit any medicine to be given your child unless you or your physician know of what it is composed?

Do You Know that Castoria is a purely vegetable preparation, and that a list of its ingredients is published with every bottle?

Do You Know that Castoria is the prescription of the famous Dr. Samuel Pitcher. That it has been in use for nearly thirty years, and that more Castoria is now sold than of all other remedies for children combined?

Do You Know that the Patent Office Department of the United States, and of other countries, have issued exclusive right to Dr. Pitcher and his assigns to use the word "Castoria" and its formula, and that to imitate them is a state prison offense?

Do You Know that one of the reasons for granting this government protection was because Castoria had been proven to be absolutely harmless?

Do You Know that 35 average doses of Castoria are furnished for 35 cents, or one cent a dose?

Do You Know that when possessed of this perfect preparation, your children may be kept well, and that you may have unbroken rest?

Well, these things are worth knowing. They are facts.

The fac-simile signature of *Dr. H. Pitcher* is on every wrapper.

Children Cry for Pitcher's Castoria.

TALKING OF CYCLONES.

Man from Kansas and His Story About the Gentle Zephyr.

"And, talking about cyclones," said the man from Kansas, "when air twisters is mighty queer things. This here one down in St. Louis wasn't worth shucks compared with some we have down our way. Why, our county had six last summer, but it pears like we wasn't going to do so well this year. Missouri seems to be a-gittin' 'em all."

The smart young man who sat beside the Kansas throw away his cigarette and even the gripman looked interested.

"You have seen a tornado, then?" said the smart young man, with animation.

"Soon 'em," said the farmer, scornfully. "Why, young feller, I comes from Kansas."

"O!" said the smart young man. A little later he ventured to remark:

"Had lots of experience with cyclones, I suppose."

"Experience? Naw, you don't get no experience dealing with cyclones," said the man from Kansas, "cause them twisters never do the same thing twice. You just learn to dig out for the cellar when you see 'em comin'."

"They do all sorts of queer things, I suppose?" said the gripman, as he started the train with a sudden bound that jolted the smart young man's hat over his eyes.

"One of 'em done me a good turn once," said the man from Kansas, meditatively. "Boot and Mit Glover own the next farm to mine out in Pawnee county, and their crops kept a-falling and they kept a-borrowing money off of me till they had their house mortgaged clean up to the roof. It looked like my money was a goner, for they kept on loosing their corn crop every year and I couldn't get the house 'cause they had a shotgun waiting for me in the kitchen. Well, one day 'long comes one of these roaring cyclones, and blessed if it didn't blow that whole house over into my pasture. Yes, sir, and dropped the roof down on the foundations just as neat as you could have laid it. Looked as if the house had just sunk out of sight. But then I didn't have a mortgage on the roof, so I didn't care about that."

"Reminds me of a story of a brother of mine out in Iowa," said the man on the other side of the aisle. "He had a fine setter dog—best hunter in the state. My brother couldn't shoot, so he wanted to sell him. But he couldn't, 'cause the dog had a twist in his tail like a pig. Cyclone came that day and just natchery rained out that tail like a broomstick. He sold that dog for \$20 the next week."

"Friend of mine saw a harder blow than those down in Mexico last winter," said the smart young man, as he lit another cigarette. "Was it a twister?" asked the man from Kansas.

"No," said the smart young man, as he dropped off the car. "It was a straight right in the jaw. It put Maher to sleep in the first round."—Chicago Tribune.

FOUGHT WITH EGGS.

Unique Weapons Employed in a Battle Between Women.

Mrs. Riley, who keeps a boarding-house at 419 Geary street, and Margaret St. Clair, one of her lodgers, engaged yesterday in a novel fight, says the Los Angeles Herald. It is asserted that Miss St. Clair purchased a bag of fresh eggs and requested Mrs. Riley to allow her to cook some of them on her stove. Mrs. Riley objected. Then, it is stated, Miss St. Clair got into action. One after another of the choice eggs were thrown at the landlady's head. The young woman was a good shot, and by the time the 12th egg had been smashed among the prizes of Mrs. Riley's front-piece that lady was in a deplorable condition. She was mad, too—very mad—and she doubled up her fists and struck her lodger a blow in the eye. Miss St. Clair is something of a pugilist herself. She sent in a right swing, and a cry of pain from Mrs. Riley announced that it had landed. Then there was some close in-fighting. For a time things were pretty lively. The two women were finally separated by some of the lodgers. Later Mrs. Riley had Miss St. Clair arrested on the charge of battering her with eggs.

Indulgent Mother Earth.

The waters deluge man with rain, oppress him with hail and drive him with inundations; the air rushes in storms, prepares the tempest, and lights up the volcano; but the earth, gentle and indulgent, ever subservient to the wants of man, spreads his walk with flowers and his table with plenty; returns with interest every good committed to her care, and although she produces the poison, she still supplies the antidote; though constantly teased more to furnish the luxuries of man than his necessities, yet, even to the last, she continues her kind indulgence, and when life is over she piously covers his remains in her bosom.—Pitts.

WHAT THE DOCTOR SAYS.

I suffered nearly three years with my head. I had severe headaches, during the last year dizziness, pressure and throbbing in the brain. I have taken three bottles of Dr. O. A. Carlstedt's German Liver Syrup, and my head is now well, Newburg, N. Y. Mrs. A. S. Jones.

Dr. W. R. McDowell, the leading physician of Central City, Ky., says: "Dr. Carlstedt's German Liver Powder is the ideal medicine and should be in every home."

CARLSTEDT'S MEDICAL CO. GENTS:—Having tried your Carlstedt's Liver Powder in my family, I do not hesitate to pronounce it a most excellent remedy, and well worthy the confidence of the public in general. Very Truly, Nashville, Tenn. H. B. Gray.

WHO IS A BETTER JUDGE.

W. N. Brandon, of Cadiz, Ky., druggist, says: "I sell more of Dr. Carlstedt's German Liver Powder than all medicines combined for Liver trouble. It's really good for all diseases the human system is heir to, as it gets the stomach and bowels in order and starts the human machinery off as if all were freshly oiled. It is simply wonderful what this medicine does for suffering humanity."

A LIVING SKELETON.

Mr. James Bennett, of Island, Ky., says: "If not for Dr. Carlstedt's German Liver Powder I would have been in my grave. Tried the leading doctors of Louisville. They were puzzled and I was given up. I was nothing but a living skeleton. I began using Dr. Carlstedt's Medicine and the change was wonderful. I know it's the best medicine on earth."

CARLSTEDT MEDICAL CO. GENTS:—I have tried your wonderful Carlstedt's German Liver Powder, and found it one of the most pleasant liver medicines I have ever taken. The pain that sometimes strikes a man at the most inopportune moment is due to indigestion. It may come in the midst of a dinner and make the feast a mockery. It is a reminder that he may not eat what he chooses, nor what he craves. He is a slave to the weakness of his stomach. A man's health and strength depends upon what he gets out of his food. This depends upon his digestion. Remove the obstructions by taking Dr. Pierce's Pleasant Pellets. They are a positive cure for constipation and its attendant ills—headaches, sour stomach, flatulency, dizziness, biliousness and "heartburn." The "pellets" are very gentle in their action. They simply assist nature. They give no violent wrench to the system. They cause not pain nor griping.

The first American telescope was put in position at Yale college in 1830.

Hood's Sarsaparilla purifies the blood, overcomes that tired feeling, creates an appetite, and gives refreshing sleep.

The first Lombardy popular in America was planted by Michaux in 1785.

In the vicinity of Boquet, Westmoreland Co., Pa., almost any one can tell you how to cure a lame back or stiff neck. They dampen a piece of flannel with Chamberlain's Pain Balm and bind it on the affected parts and in one or two days the trouble has disappeared. This same treatment will promptly cure a pain in the side or chest. Mr. E. M. Frye, a prominent merchant of Boquet, speaks very highly of Pain Balm, and his recommendations have had much to do with making it popular there. For sale by R. C. Hardwick, druggist.

The first American theater was opened in 1760 in the city of New York.

A Million Gold Dollars

Would not bring happiness to the person suffering with dyspepsia, but Hood's Sarsaparilla has cured many thousands of cases of this disease. It tones the stomach, regulates the bowels and puts all the machinery of the system in good working order. It creates a good appetite and gives health, strength and happiness.

Hood's Pills act harmoniously with Hood's Sarsaparilla. Cure all liver ills. 25 cts.

Battle Ax PLUG

Always at the front and wherever "BATTLE AX" goes it is the biggest thing in sight. It is as remarkable for its fine flavor and quality as for its low price. A 5 cent piece of "BATTLE AX" is almost as large as a 10 cent piece of any other equally good tobacco.

BOUND TO HAVE ONE.

And the Expenses Must Not Stand in the Way.

"John," said Mrs. Croesus thoughtfully, "everybody in society seems to be taking an awful lot of genealogy these days."

"Jennie what?" exclaimed John, looking up from his evening paper.

"Genealogy," repeated Mrs. Croesus.

"What's that?"

"I don't exactly know," replied Mrs. Croesus, "but I think it's a tree of some kind. At least I heard some ladies refer to it as a family tree."

"Well, what of it?" he asked.

"Why, it seems to be a sort of card, you know, and everyone who is anyone has to have one."

"Buy one then," he said irritably. "Buy the best one in town and have the bill sent to me, but don't bother me with the details of the affair. Get one, and stick it up in the corner, if you want one, and if it isn't too large."

"But I don't know anything about them."

"Find out, and if it's too big for the conservatory, stick it up on the lawn, and if that ain't big enough, I'll buy the next lot in order to make room. There can't any of them fly any higher than we can, and if it comes to a question of trees, I'll buy a whole orchard for you."

Still she hesitated.

"The fact is, John," she confessed at last, "I don't know just where to go for anything in that line. Where do they keep family trees and all such things?"

"What do you suppose I know about it?" he exclaimed. "You're running the fashion end of this establishment, and I don't want to be bothered with it. If the florist can't tell you anything about it, hunt up a first-class nurseryman and place your order with him."—Chicago Post.

One Result of Marsh Advice.

Owing to the illness of his regular office boy, Dr. Joseph Marcus some weeks ago hired a new boy named Tommy Jones. Tommy was a Jew, and when Joe, the first incumbent, convalesced, the doctor was loath to let Tommy go. But Joe wanted to come back to his soft berth, and pleaded with his former employer. A way out of the dilemma seemed to present itself, for the doctor said: "Joe, if you can put the other boy out you can get your job back." "Do you mean that I must lick him?" "That's about the size of it." "All right." When Dr. Marcus returned to his office that night he met a sight he never bargained for. The glass in the door was smashed into smithereens. A marble clock on the mantel was minus dial, glass and hands, and a handsome office chair reposed on three legs; but Joe in victorious possession, nursing a swollen cheek. "Tommy's gone," he said with a grin. The doctor said nothing, but as he made a silent survey of the wreck of his household goods he imagined the scene that had preceded the eruption, and made a mental vow never to advise harshly again.—Cincinnati Enquirer.

She Has Consolation to Sell.

It has taken the ingenuity of a London woman to transcend all previous efforts of either sex to crystallize the intangible and turn the emotions into a source of revenue. She has consolation for sale, sympathy packages, no to speak, at so much a pound. Her advertisement reads: "Sympathy offered to those who are in trouble and have no one to whom they can tell their sorrow. Interviews by appointment."

The book of woman's life is divided into three chapters: Old, hood, womanhood, and old age. The time when a young girl passes into womanhood—turning the leaf as it were between the first and second chapters of her existence—is a little care and thoughtfulness will double her chances of future happiness, and save many hours of suffering. Every young woman should have an intelligent understanding of her own physical make-up. Half knowledge, which is little better than pure ignorance, opens the way to an untold amount of pain and wretchedness.

Few women realize the influence exerted on their bodily and mental well-being by the special organism of their sex. It is hard for them to believe that the little drain which goes on from day to day is sufficient to sap away the very life force. Yet it is so. The weakness, exhaustion, melancholy, the periodical prostration and sometimes almost torture has no other cause, two-thirds of the time, than the abnormal unhealthy condition of the generative organs. Strangely enough even doctors often fail to recognize the truth. For this condition there is no other remedy in the world so helpful and certain as Dr. Pierce's Favorite Prescription. It restores health and vigor to the feminine functions and renewed vitality to the entire body. It heals inflammation, stops discharges, strengthens the ligaments and builds up the internal tissues which cannot be reached by "local treatment." It is of inestimable value to young women and to prospective mothers, greatly lessening the pains and perils of childbirth if taken during pregnancy. During the "change of life," it is invaluable.

Dr. Pierce's great book, "The People's Common Sense Medical Adviser," has not pages, profoundly illustrated. Over 60 pages are devoted to woman's diseases with suggestions of home-treatment. It will be sent free by World's Dispensary Medical Association, 233 Main Street, Buffalo, N. Y., on receipt of 10-cent stamp, to cover cost of mailing only.

The City Fathers.

The Council meeting Tuesday night disposed of the usual routine business but did nothing of much interest to the public.

The time of meeting was changed from the first Tuesday to the last Tuesday in each month.

The citizens on "Swapping Alley" again pressed the matter of suppressing horse trading on that street and won their case. The police have been instructed to prevent the collection of crowds within the city limits for the purpose of swapping horses. This will break up a business that has flourished on Fifth street since the oldest citizens were in their cradles.

North Clay street was ordered to be macadamized and curbs were ordered down on the east side of Cleveland avenue. A new pavement was also ordered to be put down in front of Wyle's drug store. It was decided to cut down Main street from Seventh to Eighth and raise it from Eighth to Ninth, to change the grade.

A sinking fund of \$6,500 was set aside to pay O. V. bonds.

Lightning's Deadly Work. (Clarksville Last Chronicle.)

News from the vicinity of Elmo, Ky., states that on last Thursday and Friday lightning did a considerable amount of deadly work in that vicinity.

Chris Jones, a farmer, had six head of hogs killed on Thursday. His little son received a bad shock from the same bolt which struck the hogs, but has recovered from the effect.

On Friday, while one of the mules of another farmer, Ross Rogers, was quietly grazing in a pasture, the animal was struck by an electric current by killed. The elements were full of electricity in the Elmo neighborhood on the two above mentioned days, causing considerable alarm, but no loss of human life is reported.

Harry Wallace, a young man twenty-five years of age, was carried under a coal mine and drowned at Townsend Island Tuesday morning.

A DESTRUCTIVE BOLT.

Lightning Strikes the Home of a North Christian Farmer.

During a heavy rain storm lightning struck the dwelling of Mr. Jno. Nixon, a farmer living a few miles north of Macedonia, near the Hopkins county line, tearing away one of the gable ends and seriously if not fatally injuring several of the inmates.

Tolbert Rucker was knocked senseless, his body being badly burned and it is believed he will die. Albert Hopper's right side was blistered and the current passed down his leg, completely paralyzing his lower extremities.

Miss Maggie Owens received a severe shock from which she has not yet recovered and two of Mr. Nixon's little children were also badly injured.
